## RUSSIA

**Faces a Serious Problem in Caring for Rumanian Refugees**

**THOUSANDS REACH ODESSA**

Country Already Has Received a Refugee Population Greater Than That of Scandinavian Countries Besides Own People Made Homeless By the War—American Relief Helps

Petrograd, Dec. 19, via London, Dec. 20.—The passage across Russian frontier of thousands of Rumanians who have abandoned their houses and property in the face of the invading Germans and Bulgarians has cast the shadow of a new refugee problem on the Russian empire. These refugees have been pouring into Odessa, Kiev and other southern Russian cities in a destitute and helpless condition and present a problem which threatens to be more difficult than any which has confronted a belligerent power since the invasion of Belgium.

Russia has only partially succeeded in colonizing and assimilating the millions of homeless Poles, Jews and members of other races who fled to the interior during the first year and a half of the war.

The magnitude of Russia's economic burden is appreciable when it is considered that the country has received already since the beginning of the war a refugee population far exceeding the combined citizenship of the Scandinavian countries while the resources of the country have been taxed to the utmost to provide for the wandering peoples whose homes have fallen within enemy lines and whose means of livelihood are either temporarily or permanently forfeited.

The wretched condition of the refugees has been steadily improved through the systematic efforts of the Russian government working through the various refugee committees.

The American relief committee, headed by Thomas Whittemore, working in conjunction with the Tatiana committee, organized by the empress, has made valuable contributions to the relief work and is now devoting its energies to meeting the Rumanian problem. Temporary barracks and numerous food kitchens have been established at all distributing centers to receive the incoming Rumanians.

The refugee ranks have been thinned by disease and many have fallen victims to cold, lack of proper food and clothing and the unsanitary conditions which are bound to accompany the sudden unloading of a vast additional population on a country at war.

### BERLIN'S COMMENT

ON PREMIER'S SPEECH.  
Amsterdam, Dec. 20, via London.—Commenting on Premier Lloyd-George's speech, the Tagliche Rundschau of Berlin says:

"Reparation could be demanded by England only if Germany had declared war on England, if we were to blame for the war, if we had committed crimes against international law and if we had been defeated."

The Lokal Anzeiger takes the viewpoint that Mr. Lloyd-George's remarks about reparation are of no avail, inasmuch as nothing has been said thus far about peace conditions. This newspaper continues:

"If Lloyd George means to postpone satisfying Europe's desire for peace until the time when the entente is successful in conquering German armies an dthuse of her allies, then the whole of Europe, as well as Lloyd George, knows full well that this announcement means eternal war, unless it is in the power of the German command to bring it to an earlier termination than Lloyd George supposes."

The Tagblatt says it prefers to await to promised reply of the entente, adding:

"For the present it appears that the gulf is very great between Lloyd George's standpoint and that described from the German side as the basis for peace."

The following is from the socialist newspaper Vorwarts:

"Lloyd George says that whoever wantonly prolongs the war will have a crime upon his soul. Do not these words imply strong self condemnation."

## STOCK MARKET IS FIRM; STEEL GAINS FULL POINT

(ASSOCIATED PRESS TELEGRAM)  
New York, Dec. 20.—Firmness ruled at the opening of today's stock market, with gains of a fraction to a point in leading issues. The only noteworthy exception to this trend was manifested by shipping shares, mercantile marine preferred and common losing 2 1-4 and 1 1-4 points respectively, on intimations that the British government is to exercise more rigid control over that industry.

Trading was in moderate volume with few traces of yesterday's excited and erratic movement. U. S. Steel had a "wide" opening of 15,000 shares at an extreme gain of half a point, which was soon extended to a full point.

Fifteen rallies and declines marked the progress of the session until the final hour, when the weakness of specialties became more acute. By 2 o'clock marine pfd. showed an extreme decline of 11 1-2, with 6 3-8 for the common and 10 for Atlantic, Gulf and West Indies.

Utah Copper made an extreme reversal of 6 points and central leather almost five. All these stocks were at lowest levels for the present movement. Rail also yielded to the weight of selling, losing all their early gains. U. S. Steel repeated its recent minimum of 109 1-8.

## POWER

**Resolution Passed by Senate Increases Electrical Output at Niagara**

**WILL NOT INJURE SCENERY**

More Power Needed On American Side Because Canada Has Diverted Electrical Current for Domestic Use in Munitions Plants—New York Towns Suffer From Lack Power

(ASSOCIATED PRESS TELEGRAM)  
Washington, Dec. 20.—Senator Wadsworth's resolution to authorize an increase in the amount of water diverted from Niagara Falls to increase the electric power output of plants on the American side of the river was passed today by the senate. The measure aims to increase the American power output to make up for the curtailment of power from the Canadian side which is being kept at home for munitions plants and other military activities.

The resolution was also taken up by the house foreign affairs committee. Unanimous consent for immediate consideration in the senate was given upon request of Senator Stone who said a temporary emergency existed, due to the Canadian embargo on further export of electrical current to the United States. Several New York municipalities are suffering from lack of power.

Diversion of 20,000 cubic feet on the American side, experts say, will not injure the scenery.

Senator Wadsworth said plants at Niagara Falls making chemicals used in manufacturing high grade steel were running with curtailed capacity and that a chemical shortage might "seriously cripple" the steel and automobile industries particularly.

## TEUTONIC

**Allies Are Awaiting Reply of Entente Regarding Peace Proposals**

**FIELD ACTIVITIES QUIET**

General Von Mackensen's Drive In Rumania Seems to Be at An End Unless Some Move of Importance is Contemplated—Quiet at Verdun and Along Macedonian Front

Events on the European battlefields are summarized from reports from capitols to The Associated Press as follows:

Further developments in the peace movement in Europe now await the presentation of the formal reply of the entente allies to the proposals of the central powers. David Lloyd George, the British premier, and Premier Briand of France have indicated that this reply will speedily be forthcoming.

Military operations in the European field of war ate at a low ebb. The driving campaign of Field Marshal von Mackensen seems nearly at end. In any event, whether or not some further move of an important nature is in contemplation in this war theatre, the reports show comparative quiet prevailing at present.

On the Franco-Belgian front also there is a lull with the quieting down of the recent activity at Verdun, while latest reports from both the Russian and Austro-Italian fronts show little but artillery duels and skirmishes.

In Macedonia, the reports show rains and fog prevailing with no military movements with the exception of patrol engagements.

Washington, Dec. 20.—The 200 Americans, detained in Syria and Palestine by the Turkish military authorities, have been granted permission to leave via Beirut on condition that they intern at Beirut for a month to make valueless any military information they may have.

The United States has repeatedly made diplomatic efforts to free the Americans, some of whom are missionaries and others naturalized citizens and until now each effort has been thwarted by the Turkish military commander. Ambassador Elkus at Constantinople reported the porte's action to the state department today. Efforts will be made to have the time of internment shortened.

## RAGS AND PAPER WORTH A BILLION SOLD LAST YEAR

(ASSOCIATED PRESS TELEGRAM)  
New York, Dec. 20.—The present high prices of paper is not due to a scarcity of rags and old paper stock, according to officers of the national association of waste material dealers, who are in quarterly session here. "The phenomenally high prices paid for old rags and 'old paper,'" said an officer of the association, "encouraged early in the year the bringing out of vast stores of these goods. We dispose of these materials to the paper manufacturers, but in recent months the latter have assured us repeatedly that they were not in the market. The fact of the matter is that the paper mills are getting all of the waste material they need."

The waste material dealers and distributors are now doing an annual business of \$1,000,000,000, the official stated.

Among the subjects to be discussed today's meeting of the association is the matter of greater uniformity in packing rags and other materials, as well as better assorting of other materials.

## WE'RE READY FOR CHRISTMAS

THIS IS A CONVERSATION I OVERHEARD LAST SATURDAY IN ONE OF OUR STORES, BETWEEN A REGULAR CUSTOMER OF OURS AND A STRANGER:

STRANGER: "Things are so dreadfully high now, that I just can't even meet my grocery bill every week, and my debts are piling up fast. I tell you it is driving me mad."

CUSTOMER: "Isn't your husband working full time now?"

STRANGER: "Yes, he's working full time, but he only makes \$18.00 a week."

CUSTOMER: "Where do you buy your groceries?"

STRANGER: "At Mr. ———'s grocery, and I know he is overcharging me but we're neighbors, you see and I can't deal elsewhere."

CUSTOMER: "I'm sorry to say that my husband only gets \$15.00 a week, but anyone at The Star Grocery stores can tell you that my bill is paid in full regular, and I have enough left over for other necessary things, and I don't deprive myself of a thing. You pay almost double for your groceries just because he's a neighbor, and because you have been dealing there so long, and you worry yourself sick over your debts. I find the Star's Grocery stores prices the lowest in town and besides I can take advantage of their specials. Start to deal here now and I'm sure you will be surprised at the difference."

## WIFE SHOTS TWICE AT HUSBAND; SAYS SHE SHOT TO SCARE

An East Newark woman early today fired two shots at her husband, who, she alleges was abusing her. Neither shot found its mark, although the husband insisted that he had been struck.

The wife was later placed under a \$300 peace bond. Police expect to take the husband into custody on a charge of drunkenness.

"I fired the shots at my husband to scare him," the woman told Chief Sheridan. "And I didn't try to hit him."

She said the trouble started early this morning, when her husband returned home from his run, and she asked him about buying Christmas presents for their two children. The husband, according to his wife, complained that he could not afford to buy presents on account of debts.

She charged that he left the house and returned a short time later with a bottle of whiskey. This he drank at the breakfast table. Then she alleged he became abusive, threatening to throw her out of the house and calling her vile names.

"Thinking to scare him," the wife said, "I secured a revolver we had in the house and pointing it at him, said I would not leave the house. He did not seem to fear the weapon in the least, but started for me and I fired twice."

"I only fired to scare him," she cried as she concluded her story to the police.

She was not placed under arrest.

## Teaching Thrift.

A phase of Newark's development along physical lines that probably is not generally understood, or at least is oftentimes lost sight of, is that this is pre-eminently a city of home owners, among the wage-earners of the community. The connection between this fact, and its consequent uplifting effect upon this large class of citizens was most strikingly brought out by Mr. E. M. Baugher, in an address to the members of the Rotary Club at a luncheon yesterday afternoon. The paramount factor that has made the two facts mentioned, possible is unquestionably the operation of the Building and Loan association, from which institutions funds may be borrowed to build homes and incidentally character.

Mr. Baugher spoke more intimately of the activities of the Old Home, and what had been accomplished through its service to the public. He is a firm believer that service to a community should be a cardinal principle in the operation of Building and Loan associations, and puts the principle into practice.

The function of these associations is unique and the service rendered the citizens of the state is different from that of other financial institutions, in that they do not ask a customer to spend money with them, but to use the means they offer to save money, not for the sordid purpose of saving, but to lay by the means for judicious expenditure.

Mr. Baugher gave some statistics for Ohio Building and Loan associations, of which there are 700 in the state, with 665,000 stockholders, depositors, and borrowers. The resources of these institutions amount to over \$270,000,000, while \$250,000,000 are loaned to 173,261 borrowers. A large part of this vast sum is used to build and buy homes. The opportunity offered by institutions like the Old Home is what has made Newark a city of homes because first the lesson of thrift has been learned and with a few hundred dollars a man can buy or build a home and pay the balance in small regular payments.

"This means more than merely building houses," said Mr. Baugher, "Go out to the extreme limits of our

## The Christmas Spirit.

Many of our holidays are mere loafing days with no particular meaning. Thanksgiving Day, which for those who founded it, was a definite and earnest recognition of the blessings of Almighty God, is for most people merely a time for over-eating. But much more of the spirit of Christmas remains. The world seems to forget for the moment a little of its hardness.

That is the outcome of the custom of giving. This habit is of course to a preposterous extent. Much of it is pure waste. But after all the habit of making gifts is a valuable one. The man who gets used to parting with his cherished money to please some one else may find that the highest pleasure comes in making other people happy.

Into this struggling, grasping, bloody world, the loving face of the historic Christ shines like one wholly alien to our selfish striving. His gospel has been preached these nineteen hundred years, and yet men are deaf to it. That does not detract from the force or the truth of it. It simply displays the imperviousness of men's hearts and the thickness of their heads.

Many people are saying that the world has made no progress since the first Christmas, because the great nations still ignore the call of "Peace on earth, good will to men." But it should be remembered that war in those days was the permanent condition now it is the exceptional one. Let every one help create that world sentiment that shall show the wickedness of it all, and the folly of this treason to the Christ spirit.

Into our peaceful homes on this side of the water, the Christ spirit should come without hindrance. May the holiday season be one when jealousies and rivalries and money getting and worldly ambitions shall be set aside. Let us have more of the child spirit of enjoyment of the simple things of life. Let there be the readiness to share one's good things with those in need.

As long as Billy Sunday preaches about Jeremiah and the old prophets he is called very useful, eloquent, and sincere, but when he hits the evils of modern life he is regarded as vulgar.

Germany is perfectly willing to take the turkey and let the Allies have the crow, or if that is not satisfactory, the allies can take the crow and Germany have the turkey.

The food speculators can think of plenty of reason for high prices, among them the high cost of limousines, steam yachts, summer cottages, and foreign travel.

A keen desire for the artistic decoration of the church with holiday greens can be stimulated among the young men by having a few of the girls direct the job.

The college freshman will never again feel himself such an important factor in the community as when he comes home for his first holiday vacation.

The people who use automobiles all through the winter often suffer from the cold, but they suffer still more from having to walk half a mile.

About now is the time to strike the Old Man for an extra allowance so as to be able to make him a suitable present.

Although Leap Year is about over, the girls will get there just the same by less obvious methods.

## Co-operation In Place of Competition.

(Cleveland Plain Dealer.)

War has turned American attention anew to the importance of foreign trade by offering to this great

est of neutral nations an opportunity rare in the history of nations. The question is whether the United States will avail itself of a situation which the fighting peoples of Europe have created.

In his recent address to Congress President Wilson touched on the fact, too little understood, that present American laws tend to hamper American activities in the field of foreign commerce. The President argued for "a freer hand in the matter of combined and concerted effort to those who shall undertake the essential enterprise of building up our export trade."

One of the conclusions of the Federal Trade Commission is that American business men under present restrictive legislation cannot successfully compete with organized foreign competitors. Under laws designed to foster competition at home, these Americans, as soon as they encounter business men in the foreign field, find that they single-handed, are pitted against keen competitors enjoying the privileges of lawful combination.

"These combination," declares the commission, "can afford long and costly campaigns to gain foreign markets, and can grant favorable terms to purchasers. In either of these undertakings the American is handicapped by law."

Foreign governments definitely encourage combinations for the American Government frowns on combination. Foreign government see that strength, particularly in the pursuit of trade conquests abroad, is to be attained through co-operation. American insistence is that each individual shall go by himself. The result of such one-sided rivalry is inevitable.

## Wilson and Hughes.

(Philadelphia Record)

Ex-Justice Hughes was supposed to be wonderfully popular in his home state, New York, but his vote does not bear out this claim. It is officially announced as 875,510, which is only 55,000 more than McKinley received 20 years ago in 1896. In 1904 Roosevelt polled 859,513 votes, and Taft \$70,070 in 1908, or only 5440 less than Hughes President Wilson's vote, 756,880, has, on the other hand, never been approached by any Democratic Presidential candidate. It contrasts remarkably with his vote in 1912, 655,475, showing an increase of over 101,000. Republicans are inclined at times to make much of the fact that the President failed to carry New York and New Jersey, quire ignoring the fact that for the past 20 years there have both been strong Republican States. Mr. Wilson developed great strength in both, polling an unprecedented Democratic vote, but he could not achieve the impossible. If Mr. Hughes had privied half as popular as his opponent he would have been an easy winner; for he started with all the advantages on his side.

## Grave and Gay.

(By No. 43718 Ohio Pen News.)

In Grand Rapids, Mich., a man was tried, sentenced, and on his way to prison twelve hours after the crime was committed. "Rapid" is right.

The lightning of Justice strikes more than once in the same place. We are told that "even a worm will turn," but, who wants to be a worm.

The man who ascribes ulterior motives to his neighbor thereby exhibits the state of his own mind. If only those without sin were permitted to throw stones, people who live in glass houses would be tolerably safe.

"It is not work that kills men," says an exchange. Quite true brother, for we know of some men who, if it is left to work to cause their demise, will surely live forever.

## Did You Know

That among the foothills of the Blue Ridge Mountains in Virginia, there has been discovered a quarry of small stones, ranging in size from one-fourth of an inch to two inches, that are all in the shape of a cross? Some of them are in the shape of St. Andrew's cross, others Roman and Maltese. They are known as Fairy Stones or Lucky Stones and a great many people of the mountain section where they are found believe that they will protect the owner from witchcraft, sickness, accidents and disaster. A legend runs to the effect that hundreds of years before King Powhatan's dynasty came into

power, the fairies were dancing around a spring of limpid water, playing with the naiads and wood nymphs, when an elfin messenger arrived from the far away Eden bringing the sad tidings of the fall of man and the advent of sin into the world, and so great was the shock the good fairies withered—petrified and were transformed, each assuming some form of a cross, which marked the advent of sin into the world and emblematic perhaps of the Cross that must take sin out of the world.

"My trouble was extreme nervousness and sleeplessness. Before this trouble came on I had severe attacks of sick headache. ## SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then back hurts and bladder bothers you.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## Milady's Boudoir

The modern corset for the beauty figure is higher bustled, and curves in more at the waist than they have for a decade past, but the finished effect is one of suppleness and natural grace. Anything like rigidity or the stiffness caused by tight lacing is avoided and the new corset is quite as comfortable as the almost boneless model, reaching just above the waistline, which the "natural figure" demanded. Figures are better taken care of by the new corset which offers some support to the bust and rises just high enough above the waistline not to cut into the flesh when its wearer bends or sits—as the very low-girdle corset was apt to do.

This support of the bust is essential in the modern frock which has a wide, snug-fitting girdle dividing bodice and skirt. If the girdle is fitted over a very low-busted corset, the unsupported bust bulges over the upper edge of the girdle and gives an ugly line.

The brassiere is an important adjunct to the modern corset, for the new corset-covers of net and chiffon cloth are so soft and transparent that something must be worn worn beneath to hide the corset and support the bust. If the outer bodice or blouse is not of transparent stuff, brassiere and corset cover may be combined in one garment, crossing in surplus style and made of material substantial enough to hold the figure firmly; but under the lace blouse or transparent chiffon bodice, which demands an equally filmy corset cover, must be worn a little brassiere of one sort or another.

## Our Boys and Girls

It is very important to have a child's shoes fit perfectly. If too large they will be apt to rub and make the feet sore. If too tight, they will be equally uncomfortable. The stockings should also fit perfectly, otherwise they will rub the feet into blisters. If too short they will cause a bunion. So you see the fit of both shoes and stockings is important.

Don't shake or scold a child who wakes up and cries out in the night. Often night terrors are a purely nervous affliction and any harshness only makes matters worse.

## Mme. Matzenaur Starts Rehearsals With Metropolitan

Eloquent testimony to Madame Matzenaur's great and versatile artistry were furnished at Carnegie Hall, New York, on Thursday night December 14th, when the famous Metropolitan prima donna sang an aria in Russian, the "Letter Scene" from Tchaikowski's "Eugene Onegin" which she had mastered in one day. Madame Matzenaur was handed the score on Thursday morning, on her return from the Middle West. Of her performance in the unfamiliar opera and language, the N. Y. Tribune, says, on Dec. 15th: "Madame Matzenaur's voice is one of the few really great organs to be heard either on the opera or concert stage. In addition she has learned to use it with rare skill and flexibility." Madame Matzenaur commences at once to rehearse with the Metropolitan Opera Company.

## LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Don't look a gift horse in the mouth, or attempt to ride a bucking hobby.

## THE NEWEST REMEDY

FOR  
Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anurie."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anurie," the new discovery of Dr. Pierce for kidney trouble and backache. Neglected kidney trouble is responsible for many deaths, and Insurance Companies examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of diseases, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopic examination—this is done by expert chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N. Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

## PRESS APPROVES LLOYD-GEORGE'S REPLY TO GERMANS

(ASSOCIATED PRESS TELEGRAM)

London, Dec. 20.—Premier Lloyd George's reply to Germany's peace proposal meets with a chorus of approval in the British press and the general comment is that if Germany really wants peace she will, when the point reply of the allies is received, state terms which can form a basis of discussion. The Manchester Guardian says: "Premier Lloyd George has not shut the door on peace with that resounding clang for which some of his less balanced supporters in the press have been listening. It is true he insisted on the impossibility of accepting the German invitation as it stands. In this he was ably seconded by Mr. Asquith and will be approved by the country. \* \* \* The German chancellor must be both more modest and more explicit before he can expect any favorable answer to his invitation. But the real danger in the situation which his offer created was that the allies, this country in particular might be led into an abrupt and sweeping refusal not merely of the actual invitation but of any proposal to discuss peace terms. This suare Lloyd George has avoided."

The Guardian says that as the speech invited Germany to be more explicit "we do not then cast out every idea of settlement and the neutral world cannot take exception to this attitude." The Guardian notes that the speech contained no hint of the crushing of Germany, but says discussion of any matter is conditioned on restitution. In the truest form, it continues, reparation is impossible for the deepest wrongs cannot be undone.

"Security we certainly require," the Guardian continues. "The security is the firm, unbroken front of the alliance, fortified when the war ends by a universal league to enforce peace. In such a league America would play a great part and her presence alone would be no small security."

## COLUMBUS C. OF C. BESTOWS HONOR UPON A FORMER PRESIDENT

Columbus, Dec. 20.—At a meeting of the Chamber of Commerce last night, A. T. Seymour, former president, was elected an honorary member of the organization. Only twice in three years has this honor been conferred. The other honorary membership went to Colonel J. Y. Bassell.

The provision of the Chamber constitution which governs the election of honorary members provides that "persons who have performed some signal service for the city of Columbus, or otherwise become entitled to special recognition, may, by unanimous vote of the directors, be rectors, be elected to honorary membership."

Mr. Seymour is well known in Newark where he has frequently addressed meetings.

## SEEK REMEDY FOR PRACTICES WHICH CAUSE CAR SHORTAGE

(ASSOCIATED PRESS TELEGRAM)

Washington, Dec. 20.—Further means to check practices which have contributed to the shortage of freight cars and general proposals looking to the betterment of the situation were discussed today at a meeting here of all railroad officials and representatives of some of the chief shipping interests.

The chief topic was a method under which abuse of the reconsignment privilege could be prevented. Information gathered by the railroads and interstate commerce commission officials is said to indicate that speculators in foodstuffs and other necessities, by abuse of the reconsignment privilege have withdrawn from their normal uses for unwarrantably long periods, thus contributing to the car shortage and indirectly to the higher cost of living.

Under existing regulations it is possible for speculators to ship to their order, reconsign them upon delivery, to other destinations and continue to practice indefinitely, keeping cars in transit awaiting favorable markets and virtually using the railroads as warehouses instead of carriers.

Thousands of cars are said thus to have been made unavailable for legitimate shipments of manufacturers and other producers.

## A Christmas Remembrance That Yields Lasting Pleasure and Satisfaction

Too often Christmas gifts are selected without regard to the permanence of pleasure that they may bring.

A Municipal Bond makes a present that not only brings a feeling of pleasure but at the same time it creates a sense of permanent and enduring satisfaction.

Municipal Bonds are backed by the public faith and credit and the power of public taxation to provide the money for their payment and are therefore regarded by bankers and financiers generally as among the safest of all known investments.

The most convincing proof of the safety and the substantial character of Municipal Bonds is the fact that with the exception of government bonds they are the only securities accepted by the United States Government to secure postal savings deposits.

Not only are Municipal Bonds safe but they are at the same time among the most readily convertible into cash of all known investments.

The Security Municipal Bond Company at all times carries a large stock of carefully selected Municipal Bonds yielding from five to six per cent and in amounts of \$100, \$200, \$500 and \$1,000.

Christmas givers in selecting their presents would make no mistake in considering one of our Municipal Bonds. Nothing could be selected that would be prized more highly or bring to the one receiving it more real and substantial pleasure.

Bonds will be reserved and held for Christmas Day delivery or within twenty days thereafter.

## SCHOOL BOARD ALLOWS BILLS FOR NOVEMBER

The board of education met in regular session in the office of Superintendent Wilson Hawkins last evening, those present being Hon. Wm. E. Miller, Clerk Ben Montgomery, S. W. Haight and W. C. Christian. After the minutes of the last meeting had been read and approved bills were allowed for the past month and Clerk Montgomery read several communications relating to school affairs after which the teachers and officers salaries were allowed for December. It was then recommended that the schools of the city be dismissed Thursday afternoon for the Christmas holidays, to resume again Tuesday, January 2, 1917.

## Granville

(Special to Advocate.)

Granville, Dec. 20.—The all-day meeting of the A. F. F. W. was held on Tuesday, December 19, with Mrs. Fred McCollum as hostess, to serve coffee at noon. On account of the usual Christmas rush, the attendance was not so large as heretofore, though the work was proportionately efficient. Three suits of completed pyjamas, seven comfort pillows, 12 inner pillow covers, 25 handkerchiefs, two knitted socks, three knitted gloves, and a great quantity of clippings were counted at 4 o'clock. Although the attendance has temporarily fallen off, still the interest is as great as ever, as the cash in free-will contributions amounted to over thirteen dollars. Lambda Deuteron chapter of Phi Gamma Delta sent a check with a note expressive of good will toward the cause. In looking over the list of workers in Paris, connected with the organization with which the Granville committee is affiliated, several people are noted who are locally known, among them one, who as a boy, spent much of his time in Granville at the Robinson home, "Greenwood," on the Newark road. This is Mr. Howard Copland, the psychologist, a cousin of Miss Eva Robinson. He wrote the astonishing article which appeared in the New York Times on December 5, 1914, entitled "Germany Suffering From a Morbid Complex," of which Vanity Fair has this to say: "Howard Copland's article should be put in the hands of every scientific student in the land as a model to be kept in mind. William James, if he were alive, would wish that he had written it. But perhaps even he could never have attained to the devilish felicity of expression that it displays." Mr. Copland is among the most efficient of the voluntary workers in Paris and is serving on the motor service committee, while his wife is on the visiting committee. Their home in Interlaken, Switzerland, was left in the charge of caretakers, while the owners threw themselves heart and soul into the arduous work of the organization which cares for the wounded on the French front.

The Christmas entertainment of the Baptist primary department will be given on Friday afternoon at 4 o'clock. Rehearsals have been held each afternoon and the program promises to be an enjoyable one, being in the form of a cantata, "The Story of a Star." All friends of the department are invited. At 7 o'clock on that same evening the Intermediate department of the Baptist Bible school will give its annual Christmas entertainment in the lecture room of the church.

The offering taken at the Baptist church last Sunday in connection with the appeal of Hon. J. A. White for the Ohio Anti-saloon league, amounted to \$76.75 in cash and \$97.80 in pledges; total, \$174.55.

Mr. James A. Huston of the Columbus road has been spending the week-end in Pittsburgh.

Miss M. E. Penney has been the guest of Newark friends today.

Miss Frances Jones, daughter of Mr. and Mrs. J. S. Jones, who is attending school at Bryn Mawr, is expected to arrive at "Bryn Du Farm" Thursday, where she will spend the Christmas holidays.

The Women's Christian Temperance Union will hold its next regular meeting on January 12, 1917, at the home of Mrs. Jessie Brown in East College street. All local clubs and women's organizations will observe the Christmas vacation.

The next meeting of the Women's Music club will not be held until the afternoon of January 10.

## WHAT TO GIVE FOR CHRISTMAS

That is the big question that looms up annually at this time, and it is a particularly perplexing question so far as the majority of people are concerned.

One thing that is evident is that the tendency in recent years has been more and more toward the giving of practical gifts. Instead of trifles and fenderols, that did not in any way please the recipient or represent more than the good will of the giver, the modern custom is to give something that is particularly appropriate—something that is a pleasure to give as well as a pleasure to receive.

Musical instruments naturally make splendid gifts, and this is particularly true of that wonder instrument, the Victrola, for it can be played by any one and its delightful and varied music is a continual source of pleasure to every member of the household. It is a gift that will be appreciated not only on Christmas day, but throughout the entire year.

There are different styles of the Victor and Victrola and they come in variety enough to suit any home and any pocket-book, and when desired the dealers will as a rule arrange easy terms.

A visit to the store of the nearest Victor dealer will well repay you. He will gladly demonstrate the Victrola to you and play any music you wish to hear. And while you are enjoying this impromptu concert, you will more than likely be enabled to settle that question of "what to give" and settle it in a way that will please all concerned.

### Amusements

#### ALHAMBRA.

Tonight and Tomorrow, Robert Stafford, a self-made millionaire, is a strong, handsome bachelor, possessed of the usual virtues and faults of his class. The telephone operator who attracts his attention is an orphan and a girl that any man would be proud to claim as his sister or his wife.

Stafford really falls in love with the girl and offers to make her his wife. She marries him and he is so kind and good to her that she loves him devotedly. All happiness? Not quite. John Barleycorn plays trumps and the others are unable to follow suit.

Her fight for a principle is similar to thousands of other fights which are being waged in thousands of other homes at the present time. This is one of the most beautiful sermons ever preached and one that is not easily forgotten.

Alice Brady, with a specially selected cast, will present this exceptional feature at the Alhambra theater on Wednesday and Thursday. It is a screen version of the well-known play, "Bought and Paid For," and will be an unusual picture even for the record breaking World Brady-Mades.

#### AUDITORIUM.

"The Unborn," Today. "The Unborn" the feature picture that is being screened at the Auditorium today has received lots of publicity and in almost every city visited the picture has played a week at a time, and in the larger

HAZEL CLINE.

With "The Tourists" (Newark girl) cities for months, to capacity houses. It is a sensational drama dealing with many delicate subjects, but handled in a way that none can take offense at. The Ohio Board of Censors, who passed upon the picture several months ago, said it was one of the most powerful sermons ever

shown on a screen and they hoped that all would see it as it was screened in the different Ohio cities. A strong cast is seen, headed by Gertrude Bondhill, a noted leading lady and her support is said to be way above the average. The displays are for today only and the schedule of showings and time that you will get to see the beginning of each showing, will be found in the Auditorium add today. No children under 16 years of age will be admitted and the price to all is placed at 25 cents.

#### "Romeo and Juliet."

The coming of Theda Bara, who plays in "Romeo and Juliet," was prophesied by the ancient Egyptians!

Rhames, priest of Set, writing on the stone walls of a tomb near Thebes, foretold the great emotional actress, who would lead men to destruction by her wiles.

"I, Rhames, priest of Set, tell you this," the inscription reads "She shall seem a snake to most men, she shall lead them to sin and to their destruction. Yet she shall not be so. She shall be good and virtuous and kind of heart; but she shall not

be so to most men. For she shall not be that which she appears. She shall be called O——"

Here the inscription breaks off.

Viewed in this light, it is easy to unravel the rest of the mystery. By the law which language students follow, known as Grimm's law, the "d" and "t" are interchangeable in many languages. Making this slight emendation in the name of the Greek letter, one gets the correct name of the famous screen vampire, "Theda."

This feature together with Pathe's Famous Weekly will be the Friday and Saturday attraction at The Auditorium. On Saturday morning at 10, all Kidlets with ages up to 14 years, will be admitted to the Charity performance for Two Potatoes, an egg, coal, anything in the eating line, or wearing apparel, all to go to some charity organization, to cheer the needy poor. This is a good stunt and parents should send their children. Remember this is Saturday morning at Ten o'clock.

#### "The Tourists."

As the coming holidays fall on Monday, the Wheel shows will be seen at the Auditorium both on Xmas and New Year's Day. For Xmas day the attraction is "The Tourists," who present a production that is regarded as perfect example of all that is meant by up-to-date musical shows of this kind. It is said that the producer has strictly observed the rule that exact cleanliness and merit and has arranged a show that keeps the spectators constantly interested and highly amused without at any time resorting to those offensive features that have so long characterized this form of amusement. Two one-act travesties called respectively, "A Trip to Paris," and "The Rest Cure," with vaudeville specialties, be given by a company that is said to include several of the best entertainers in this field of endeavor. Vaudeville specialties are contributed by Eddie Fox, the tramp with the piano, Gus Fay and several others. The feature of the performance that is calculated to interest the spectator most occur at the opening of the second act when all of the members of the company are dispersed throughout the audience and induce in all sorts of lively action until they have all returned gradually to the stage.

The seal sale does not start until Friday morning, but mail and money orders received now will get your seats far in advance and we would advise all who expect to go, to secure seats early as a large crowd will be sure to attend. The matinee prices for this day will be the same as evening.

#### Al. G. Field Company.

The production this season of the Al. G. Field Greater Minstrels, which is at the Auditorium theatre Thursday, Dec. 25th, with matinee and evening performances is announced as keeping up the reputation of the

Roby, 125 pounds; H. M. Chenoweth, 153 pounds; H. Wasserman, 115 pounds; H. Tannenbergh, 135 pounds (National A. A. U. champion); W. E. Ellis, 165 pounds; and L. M. Rimond, 145 pounds. Metals will be awarded the winners in their respective classes.

BOSTON VOTES TO RETAIN SALOONS; SPIRITED FIGHT

Boston, Dec. 20.—Boston yesterday voted to continue the licensed sale of liquor after the liveliest campaign on the liquor question that the city has had in years. The vote in favor of license was 53,459, with 29,997 against. Last year the vote for license was 46,115 and 31,877 against.

The total vote was the largest ever cast here on the license question, which overshadowed all other issues in the campaign.

Women holding banners bearing pictures of small children and the words, "Please Protect Us by Voting No License," were stationed in the vicinity of most of the polling booths. Motor trucks and brewery wagons carrying printed appeals to vote yes were sent through the city by the license forces.

Evangelist Billy Sunday, who is conducting an evangelistic campaign here, took a prominent part in the fight. He delivered several addresses on the liquor issue and urged the voters who attended his meetings to vote "no." The Massachusetts Antisaloon League sent out thousands of circulars and kept a force of orators busy for weeks.

**SALOONS BANISHED.**  
North Adams, Mass., Dec. 20.—This city went no license yesterday for the first time in 29 years by a vote of 1694 to 1596. Last year the license forces won, 1741 to 1557.

GLAD VAR-NE-SIS WAS PUT TO TEST

NO MORE RHEUMATISM AFTER SUFFERING FIVE YEARS.

Mr. Philip R. Wood of 182 Washington street, Dorchester, Mass., is enthusiastic about Var-ne-sis and what it has done for him. He said:

"I suffered from rheumatism for five years and believe I know what rheumatism means. The pain was so intense I was unable to sleep and had to walk the floor. My arms and shoulders were very sore and stiff and I could feel that my hands were very weak, so much so that I had great difficulty in getting on my coat. At times I was unable to life my arm to my head.

"Var-ne-sis is a wonderful medicine, and I am recommending it to everyone suffering from rheumatism."

3 CANDIDATES INITIATED BY ORDER OF ELKS

An initiation was held by the Elks last evening. Messrs. Floyd G. Clunis, J. V. Mast and Ralph H. Mercer being the candidates. They are now full-fledged members of the antlered herd.

District Deputy Charles C. Janes of Columbus was present and inspected the work, books and paraphernalia, paying the officers a nice compliment for the manner in which the work was done.

Matters pertaining to the annual Christmas cheer were discussed, including the dinner to be given the one hundred youngsters at Assembly hall on Christmas day, and the annual minstrel which is to be given in the near future. The committee was instructed to spare no expense in staging the show and make it the best ever by the local organization.

A social session followed and the tables were loaded with good things including escalloped oysters, shrimp salad with mayonnaise, Westphalia ham, celery, onions, olives, cottage cheese chow-chow, cheese and buttered wafers, coffee and cigars. Exalted Ruler Daugherty gave an after dinner talk and responses were made by several members after which a program of music followed. Progressive pinocle followed and Johnny Maybold was awarded the prize for winning the most games. Fletcher S. Scott capturing the booty.

LOCAL AMATEURS ARE READY FOR THURSDAY MEET

Bowser's Team Will Face Strong Aggregation in Columbus Y. M. C. A. Team Thursday Night.

Newark and Columbus wrestling fans are assured of seeing seven of the best wrestling matches ever staged in this section of Ohio, on next Thursday night at the Auditorium when the Capital City Y. M. C. A. team clashes with the Newark Amateurs in the big inter-city championship tournament.

The seven bouts of the evening will be the finish bout between Young Gotch, of Columbus, and Paul Bowser, of this city, world's middleweight champion. And it will be some bout. Gotch for the past two years has chased the champ around the country with challenges, but the men could never get together on the weight question. Several weeks ago, Gotch agreed to meet Bowser at each weights and on the same evening to send his team of six men, against Bowser's six best bets.

The tournament was arranged and both grapplers immediately got busy whipping their boys into shape. And it has been no hard matter to get the two teams to working, because of Columbus' defeat last season in Newark. The visitors are anxious to even up on their next trip here and have the class of the Columbus Y. M. C. A. on the team.

The local lads have the experience of another season and feel that they can repeat their victories this year. Perhaps the hardest proposition on the visiting team will be H. Tannenbergh, National A. A. U. champion, who is slated to meet Earl Howard, in the 135 pound class.

Bowser has been coaching Howard a little more than the rest of the boys, because he realizes that a victory for Howard means another championship for Newark. But regardless of which team wins, the fans are going to see six of the fastest and hardest fought preliminaries ever staged at the Auditorium.

Arrangements are being made by the visiting fans to come to Newark in special cars and a large crowd will be at the ringside to root for their favorites. The tickets for the show were placed on sale yesterday at the Auditorium and the various cigar stores and the early advance sale of pasteboards indicate a large attendance among local devotees of the mat game.

The first bout, which will probably be between Lester Fishbaugh and H. Wasserman, in the 115 pound class, will be called promptly at 8:15 o'clock.

## HUSBAND RESISTS ARREST ON CHARGE OF ABUSING WIFE

While police were trying to  
straighten out the family difference  
in East Main street, at noon today,  
a telephone call was received at the  
patrol station from a woman in  
Bowers avenue, who said a man in  
her neighborhood was murdering  
his wife.

Director Cecil Bigbee, Patrolmen  
Abbott and Donley and two report-  
ers made a hurried trip to the scene  
of the trouble. The man was placed  
under arrest by the officers as he at-  
tempted to escape from the rear door  
of his home.

At the city prison, he gave the  
name of Henry Craig, 56 Bowers  
avenue. He will be arraigned before  
Mayor Bigbee Thursday morning.

According to the story told police  
by Mrs. Craig, her husband she said,  
has been abusing her for some time  
and frequently at night pulled her  
from her bed and choked her. To-  
day, she alleged, Craig was choking  
her and she drew a butcher knife on  
him, but he took it away from her.

Neighbors hearing the woman's  
screams, called the police. As Craig  
was leaving the rear door of his  
home, he ran into the arms of Offi-  
cer Abbott and for a moment showed  
signs of fight, but the arrival of  
Donley caused the man to cease  
struggling.

## LOCAL WEATHER

The promise of a cold wave, which  
would stop the possibility of a slop-  
py condition of the weather for the  
concluding days of the pre-Christmas  
business, will be cheering news to  
the business men who have watched  
the climbing mercury in the past 36  
hours, with some apprehension. A  
rain on the present snow covered  
walks would be a severe blow to the  
merchants coming at the time when  
the final Christmas rush is expected.  
However, a spell of warmer weather  
will bring relief to many who have  
suffered from the severe weather  
and the fuel shortage. Snow and  
colder tonight and Thursday is the  
promise of the weather bureau.

A Bad Boy of Colonial Days.

A notebook of a justice of the peace  
in Connecticut in the year 1750 spec-  
ifies the behavior of a certain small  
meeting house boy as follows:

A rude and idel behavior in the met-  
ing haws, such as smilling and larling  
and intinseling others to the same evil.  
Such as larling or smilling and pull-  
ing the hair of his nayber benoni slin-  
kin in the time of publick worship.  
Such as throwing Sister Pentecost  
Perkins on the ice it being Saboth Day  
or Lord's Day between the meting  
haws and his plaes of abode.—Bliss,  
"Side Glimpes."

Great Scheme.

"What do you do," asked the one  
who had been married only a few  
months, "when your husband comes  
home late at night?"  
"I pretend not to notice that it's late,  
and pretty soon he asks me if I  
wouldn't like to go to the theater or  
somewhere tomorrow afternoon."

Bamboo.  
The bamboo sometimes grows two  
feet in twenty-four hours. There are  
thirty varieties of this tree. The small-  
est is only six inches in height and the  
largest 150 feet.

Just Fits.

"The time, the place and the girl are  
seldom found together."  
"That alludes to the hired girl all  
right."—Louisville Courier-Journal.

It's the little things that count. A  
brunette hair in the butter will de-  
stroy the harmony of a light lunch.

From Emorio to America.  
The transformations that take place  
in a name as it passes through differ-  
ent languages can only be accounted  
for by carelessness in transmission.  
One would scarcely expect the name of  
Emorio, the name of a pious Hun-  
garian prince of the eleventh century,  
who was made a saint, to take the  
form of Amerigo in Italian and of  
Amory and Emory in English. The  
name in German, but little changed  
from the original, is Emmerich. This  
obscure Hungarian saint has been a  
person of consequence in this world,  
for from his name has come that of  
this great continent. In the fifteenth  
century, in the Italian form of Ameri-  
go, it was bestowed upon an Italian  
navigator surnamed Vespucci, and this  
continent, by a still further mutilation  
of the name, came to be known as  
America. When King Stephen of Hun-  
gary was choosing a name for his son  
he could scarcely have imagined that  
the name chosen was to be the parent  
of the word America and that poor old  
Christopher Columbus was thereby to  
be despoiled of a recognition that is  
far from being compensated for by the  
term Columbia.—Indianapolis News.

Both Were Envious.

It was in Cleveland, and the day  
was hot. The Mastodons had just fin-  
ished their parade, and Charles Froh-  
man, perspiring and wearing the ab-  
horred silk hat, entered the box office  
of the opera house on Cleveland ave-  
nue. Sitting in the treasurer's seat he  
saw a sturdy lad fingering a pile of  
silver dollars. He slipped them in and  
out with amazing dexterity. Hearing  
a noise, he looked up and beheld young  
Frohmman with the tile tilted back on  
his head. The boys' eyes met. Into  
each came a wistful look.

"I wish I had that silk hat of yours,"  
said the boy at the window.

"I wish I could do what you are do-  
ing with that money," was the re-  
sponse of the envious one.

Such was the meeting of two men  
who afterward became dominant fig-  
ures in the theatrical world. The boy  
with the dollars was A. L. Erlanger.

"Charles Frohmman, Manager and  
Man."

Milkmaids in London.

At one time it was a common thing  
to see milkmaids in Fleet street. Lon-  
don milkmaids of past days were  
usually strongly built Irish or Welsh  
girls, mostly Welsh, but how long ago  
it is since one yodled in Fleet street  
it is difficult to say. Yet only a few  
years ago a milkmaid actually prac-  
ticed her calling in the open in central  
London. Two cows were attached to  
the "milk fair" in St. James' park,  
near Spring gardens, and a tumblerful  
of milk "fresh from the cow" was a  
popular beverage. The "fair," which  
was held by a family descended from  
the original holders of an old privilege  
granted by royalty, was abolished by  
order of the office of works.—London  
Chronicle.

Not Distant.

Of the unconscious humor of wit-  
nesses the following is not a bad ex-  
ample:

Magistrate—I understand, then, that  
after heckling the candidate the de-  
fendant became very violent and abus-  
ative?

Constable—Yes, sir.  
"And so," continued the magistrate,  
"you used drastic measures to remove  
him?"

Constable—No, sir; I used my club.

Creased Ribbons.

Crushed ribbons should not be iron-  
ed; it makes them shiny. Dampen  
them and then fold them smoothly and  
tightly around a rolling pin or empty  
bottle. This will remove slight creases.  
There is nothing for very bad creases  
but to iron them.

The Difference in Dogs.

You can keep a real fine dog in food  
at an expense of about \$10 a month,  
while a real sorry dog can get out and  
make a living for himself.—Fort Worth  
Star-Telegram.

No Initiative Wanted.

Rich Man—My daughter, sir, has nev-  
er wanted for anything. Poor Sutor—  
Then for heaven's sake don't make her  
begin now! She wants me!—Philadel-  
phia Bulletin.

Mocking Him.

"Fortune will smile on you some day,  
my boy."  
"Maybe so, dad, but just at present  
she's giving me the laugh."—Detroit  
Free Press.

PRACTICAL HEALTH HINT.

Hot Applications For Pain.

Pain and a tight feeling in the  
chest are greatly relieved by an  
application of turpentine—spirits  
of turpentine—a few drops sprin-  
kled on a piece of hot flannel  
which has been wrung out of  
hot water. It is difficult, how-  
ever, to wring flannel out of  
boiling water without scalding  
the fingers. The best plan,  
therefore, is to hold the flannel  
by the corner, drain for an in-  
stant, then put it in a towel  
lengthwise. Take each end of  
the towel in the hands and  
twist in opposite directions. This  
will wring the flannel almost  
dry, yet leave it very warm.  
The turpentine application is  
also an excellent remedy for pain  
in the abdomen, especially the  
colicky kind of pain caused by  
catching cold.

## Teutonic Advance In Wallachia is Still In Progress

(Associated Press Telegrams) Berlin, Dec. 19.—(By wireless to Sayville.)—The military critic of the Overseas News Agency, in an article on the situation on the various fronts, says:

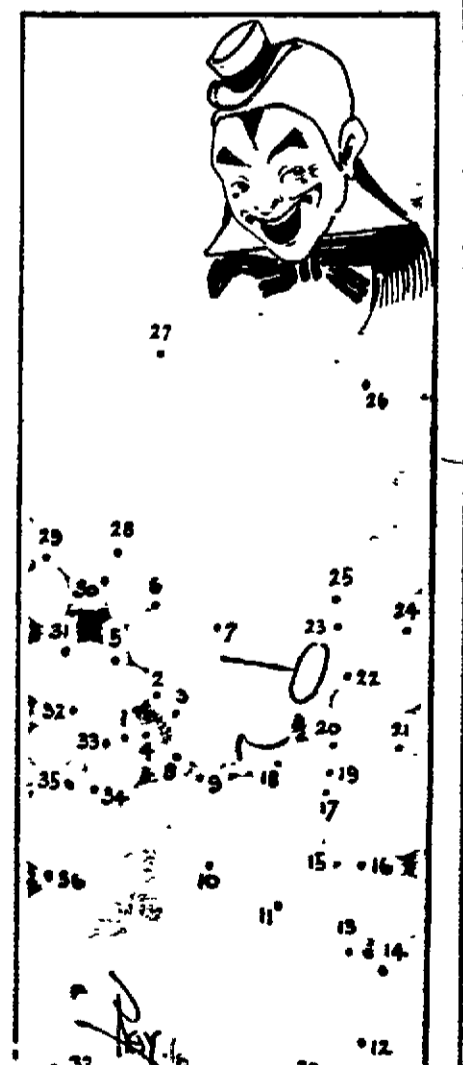

"In spite of the rainy weather and the completely soaked roads in eastern Wallachia, the Teutonic allies are making rapid progress. The fragments of the Rumanian army are being irresistibly driven into a square which is hardly 80 kilometers wide, and bounded by the Danube on the east, by the mountains on the west and the Sereth river on the north. Through this flat district flows the Buzeu river. The chances of success for resistance in it are exceedingly small as the river has been crossed on a broad front by the pursuing troops. The only large town in this district still in Rumanian hands is Rimnik Sarat.

"The towns of Braila, Galatz and Fokshani, from a strategic and geographic point of view, belong to the Sereth position.

"In Dobrudja the Russians have been driven by the Bulgarians until they are south of Babadagh. The front of the central powers now has been shortened 900 kilometers (about 600 miles), which is as much as is considered possible.

"In the western theatre the situation is unchanged except for local engagements. The French advance near Verdun was nothing but a political demonstration and will be unable to exercise any influence upon the general situation. The balance of the year of 1916, therefore, will not be improved for the French by small local successes. After months of sanguinary fighting and heavy French and English losses the front in France and Belgium is virtually the same as it was in December, 1915."

## REQUEST FOR TIME BROUGHT VISIONS OF HOLDUP MEN

Police this morning were confronted by reports of two alleged holdups last night in Granville street, but an investigation revealed that both reports were unfounded.

Delmar Nichols, 103 Columbia street and a man named Graham, returning to their homes from the K. of P. club, were accosted on Granville street by a man who inquired the time. Visions of a holdup were flashed into the minds of the two men, who instead of answering the stranger's questions, hurried on their way.

Arriving at home, the men called the K. of P. home and informed other members at the club to be on the watch for a holdup man, who had just stopped them. The report of the alleged holdup, soon spread over the city and early this morning the telephone wires at the patrol station were kept warm by anxious citizens.

Since the two bold holdup Monday evening by the armed bandit, Newark citizens have been on the alert for the holdup men and the police have been kept busy apprehending all the suspects reported.

## What the Language of the Chest Tells

A doctor hears some curious noises when he places the stethoscope against your chest to test whether you are fit for the army or not. When the lungs are healthy a pleasant breezy sound, soft in tone, is heard as the breath is drawn in and expelled. If the stethoscope conveys to his ear a gurgling or bubbling sound the doctor knows that you are in what is known as the moist stage of bronchitis. In the dry stage of the same complaint the sound is a whistling, wheezy tone.

One of the signs of pneumonia is the soft crackling note that comes through the stethoscope. It is not unlike the sound that can be heard when your finger and thumb have touched a sticky substance and you first place them together and then part them, holding them close to your ear.

Doctors occasionally hear a dripping sound, and that tells them that air and water have got into some part of the chest where they have no right.—Pearson's Weekly.

Afternoon crowds are the greatest this store has ever witnessed. To facilitate shopping we have stationed many extra clerks in the busiest departments; but if you want to shop with greater comfort, come in the morning, before eleven o'clock. Stocks are in better order, clerks are refreshed and the aisles are not crowded and jammed as during the afternoon hours. Remember this: "You shop well if you shop in the morning."

## SLATE DEPOSIT NEAR MT. GILEAD BURNS LIKE COAL

Despite the increasing price of coal, residents of Mt. Gilead are likely to suffer no particular hardships. If a new slate, which has been discovered near Alum Creek bridge in Morrow county, proves to be just what the discoverers thing it is.

A quantity of the coal-like substance was first picked up, several days ago, by workmen who were repairing the bridge. By chance some of the stone was thrown into a huge bonfire, which had been built for heating purposes and almost instantly the supposed slate started to burn. By adding more to the fire, the men discovered they had found a substitute for coal.

Since that time it has not been an uncommon sight to see lanterns near the slate pile.

Some of the citizens of Quaker-town, which lies near the "mine" are already considering the building of a large plant for mining and handling of the new fuel. There are hundreds of thousands of tons of this burning fuel in sight.
